

Monday Meeting

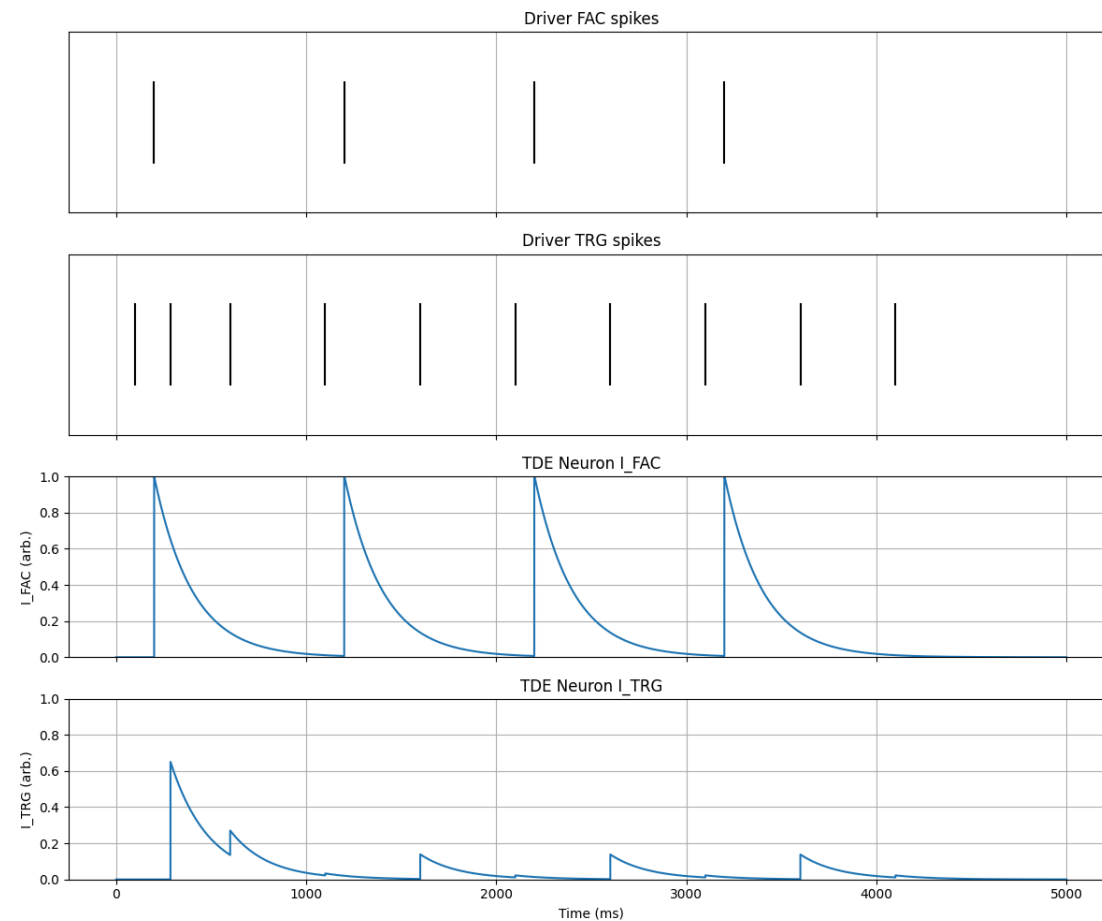

13.10.25 Meeting

Week Summary

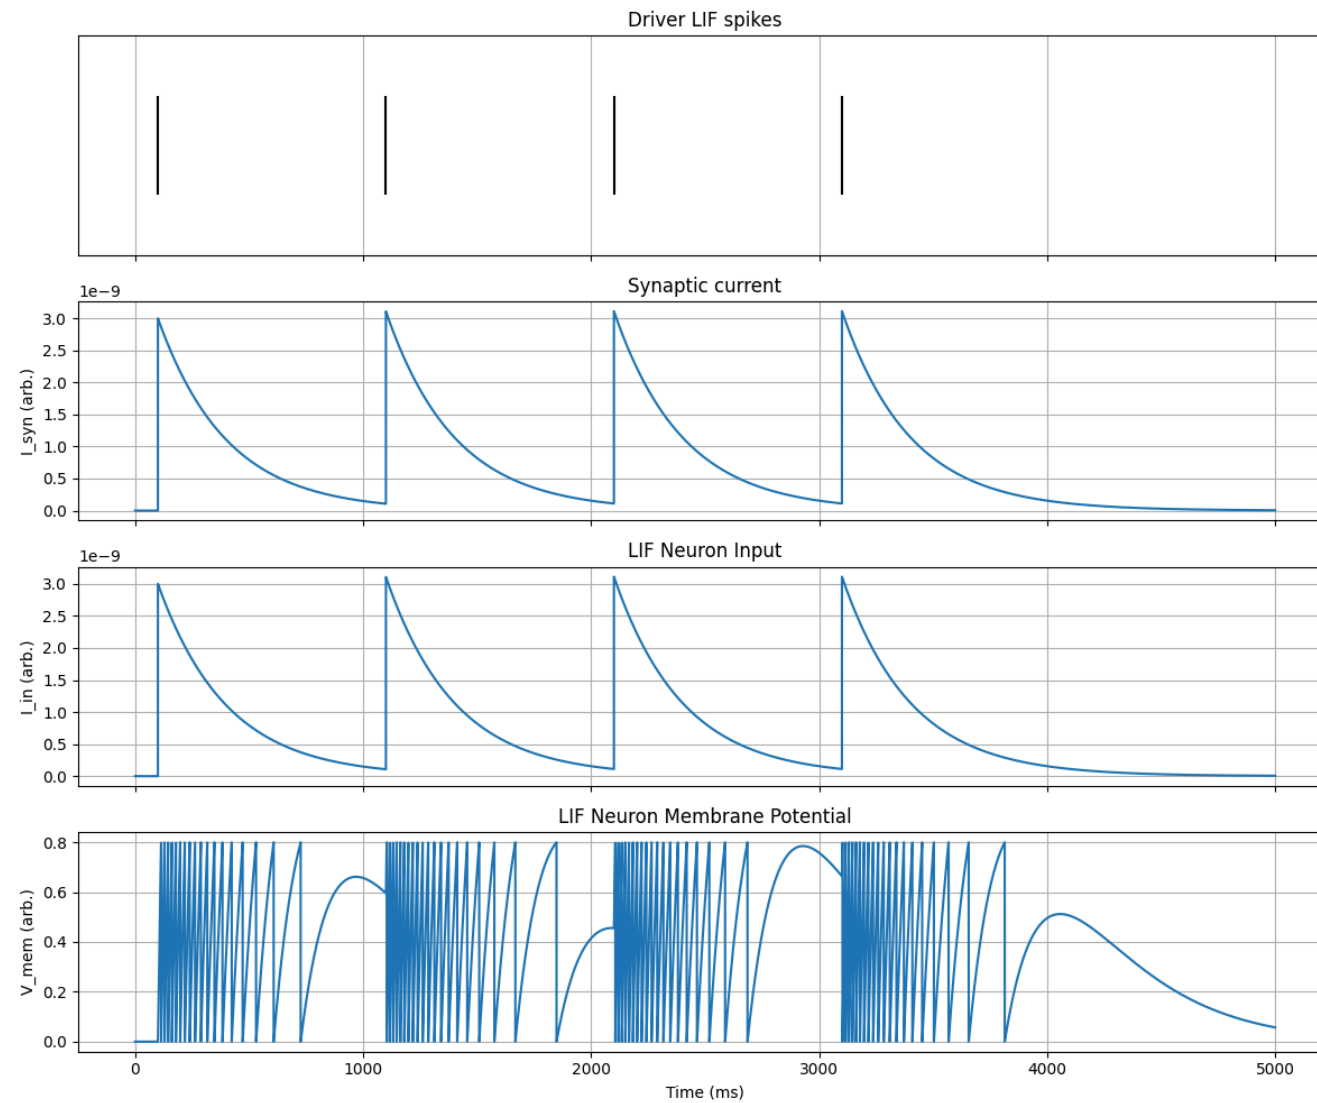

- Prepared for the meeting with Chiara about the PhD plan.
- Read the original paper about Predictive Coding.
- Discussed with Ben about Predictive Coding + insights on how it might work in biology + tactile chip.
- Got real world data from a Postdoc in IIT's lab.

Started implementation of Elisabetta's sPLL

- TDE working :

- LIF TDE working :

Next things to do

- Read about Predictive Coding Light paper (same author as AEC).
- Finish sPLL implementation + Test with noisy input spike trains.
- Take a look into the papers than Ben recommended.
