

# **SNACE Meeting**

**20.11.25 Meeting**

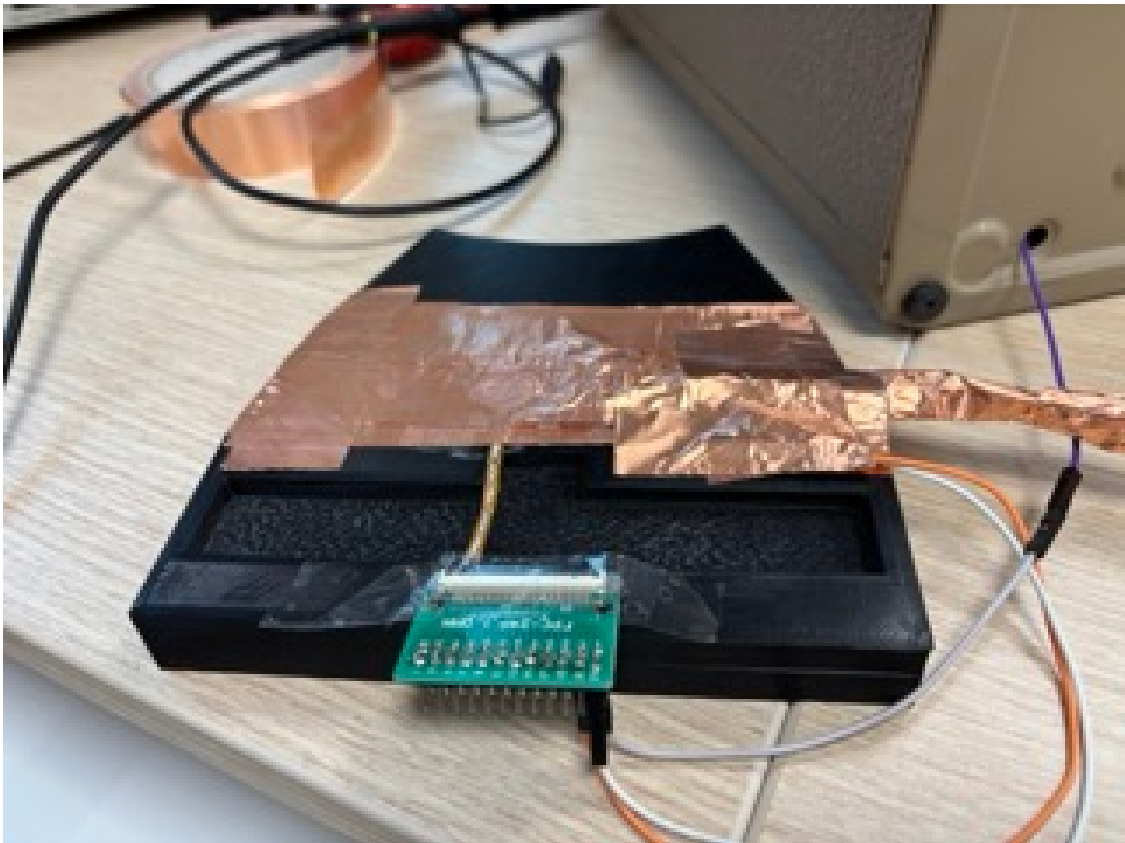

# Progress this past month

- Started deriving experiment setup to characterize the tactile processing chip:

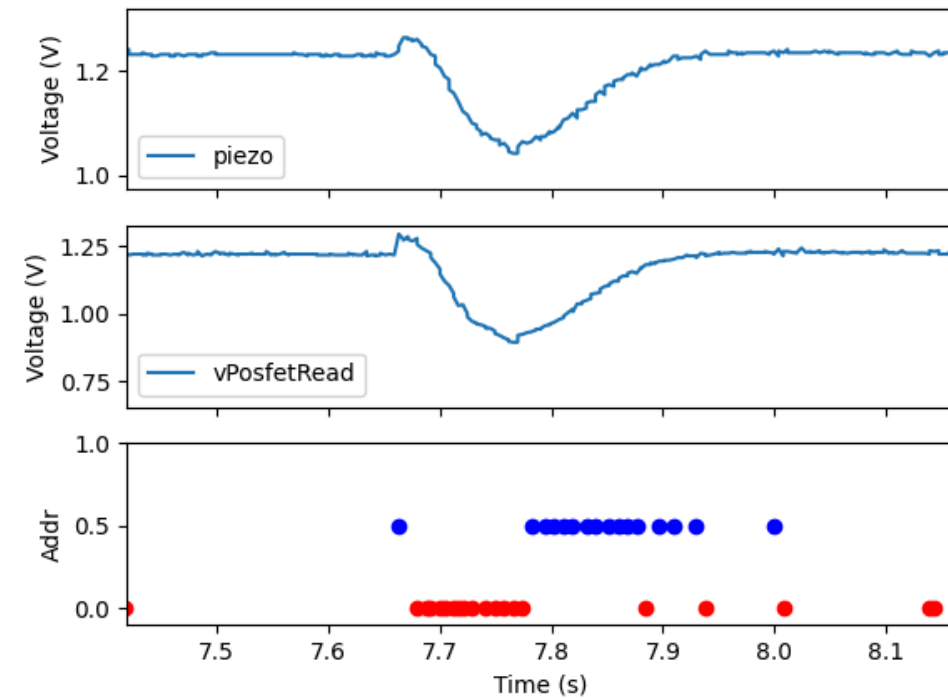

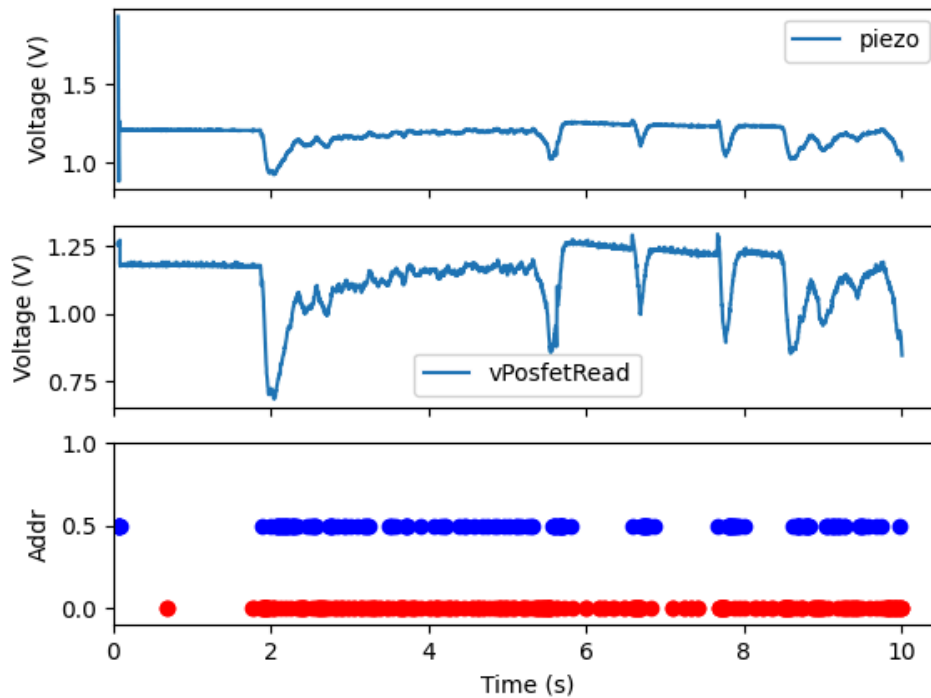

# Progress this past month

- Sensor setup (Piezoelectric + Capacitive):

# Progress this past month

- Old Chip recording:

## Progress this past month

- Started reading about Resonate and Fire neuron (type 3 neuron) for frequency extraction.
- Goal is to have a band-pass filtering neuron with tunable cutoff frequencies.
